Eyes Up! It's Raining Coconuts?

You can put the lime in the coconut and drink them both up, but don't expect to be feeling better if your head gets in the way of one of these fibrous fruits departing a tree.

Did you know that enough people have been killed by falling coconuts that an insurance policy was created? Yes. You read that correctly!

Although meeting one's end in a "death by coconut" situation is extraordinarily unlikely, a travel agency in the United Kingdom created coverage for this unfortunate incident after reporting 150 coconut-related deaths per year.

While we can't control what your colleagues do on vacation or walking in their backyard, we can help ensure coverage in the event of a workplace accident.
